In 2016 Kesselrun has been approved under the Junior Exploration Assistance Program (the "JEAP") sponsored by the Northern Ontario Heritage Fund Corporation and the Ontario Prospectors Association. As of the date of this report the Company have not applied for a rebate on its exploration expenses pending receipt of results from its exploration program.

Significant Events

April Private Placement Financing

On April 8, 2016, the Company closed its private placement offering (the "April Offering"), which consisted of 600,000 flow-through shares (the "FT Shares") at a price of \$0.05 per FT Share and 4,400,000 non-flow-through units (the "NFT Units") at a price of \$0.05 per NFT Unit for gross proceeds of \$250,000. Each NFT Unit consists of one common share and one half of one common share purchase warrant (a "Warrant"). Each whole Warrant entitles a holder to purchase one common share at a price of \$0.10 for a period of two years expiring April 8, 2018.

In connection with the April Offering, the Company paid finder's fees, as permitted by the policies of the TSX Venture Exchange, comprised of \$17,500 cash and 196,000 warrants (the "Finder's Warrants"). Each Finder's Warrant entitles the holder to purchase one common share at a price of \$0.10 for a period of two years expiring April 8, 2018.

The Company recognized a liability associated with the premium received on the FT Shares of \$17,780, which was taken into income at July 31, 2016, since the Company had incurred enough exploration costs to be able to renounce the said premium under applicable rules and regulations.

All securities issued under the April Offering were subject to a hold period of four months and one day from the date of closing, which expired on August 9, 2016.

June Private Placement

Each FT Unit consists of one flow-through common share and one half of one common share purchase warrant (a "June Warrant"). Each whole June Warrant entitles a holder to purchase one non-flow-

through common share at a price of \$0.20 for a period of twelve months expiring June 14, 2017. Since the FT Units issued as part of June Offering were not issued at a premium, the Company did not recognize a flow-through share premium liability associated with these FT Units.

In connection with the June Offering, the Company paid cash finder's fee totaling \$38,990, as permitted by the policies of the TSX Venture Exchange.

All securities issued under the June Offering were subject to a hold period of four months and one day from the date of closing, which expired on October 15, 2016.
